

# What is an **ARCPANEL** Roof System?

An **ARCPANEL** roof panel consists of a top sheet and bottom sheet of Colorbond® steel bonded to an insulated core.

## An **ARCPANEL** roof is an all in one system, quick and easy to install.

The panels are lightweight and easily handled, there is no need for trusses, roof sheeting, insulation and lining, battens, plastering or painting – saving time, money and the environment.

## The **ARCPANEL** Advantage

- Australian Owned and Manufactured
- Industry Leading Warranties
- Fire Rated Superior Protection
- High Thermal Comfort Rating
- Colorbond® Made for Australia
- Cyclone Rated
- Large Spans Less Structure
- Fast Track Project Delivery
